

# Unbound your worries...Go wireless!

## hiPPER55-MKS

**DDC in partnership with GLOBE TELECOMS presents the latest technology in Market Collection System for Local Government.**

**Hipper55-MKS simplifies your life by combining a mobile phone with handheld printer that automates the process of issuing receipt (approved by BIR). It also supports GSM EDGE networks, a worldwide standard for high-speed wireless data communications.**

**It virtually brings your office to the valued clientele anywhere, anytime. You can connect wirelessly at the head office. Records are updated on a real-time basis.**

### System Features:

- Cashless payment via G-cash (optional)
- Record and back-up Field Collector activities
- Print Official Receipt
- Can generate Management Report for daily, monthly or annually transactions.
- Real-time sending and updating of data and transactions (with GPRS)
- Minimized the work and time of whole collection cycle
- Eliminates most of the usual errors connected with manual collection such as encoding errors and illegible writing of collectors.
- Direct downloading of data from Mobile Collection System to your system after completing the Zone at the end of the day, thus eliminating encoding
- Back-up of system and data using memory card thus eliminating the possibility of "lost" data during collection

### What's included

Treo600	USB Sync Charger	Palm Charger	Printer Charger
Datocs PP55 Printer	MMC Back-up card	Pouch Bag
