PRINTER**

**PALM TREO 750 OR
HP IPAQ 212 /112
AND DATECS PP55
PRINTER**

FEATURES:

- Eliminates most of the Billing process errors such as encoding errors and illegible writing of Meter Readers.
- Printing and Distribution of Bill Receipt/Notice during the reading.
- Can accept "Field Collections" during or after the reading period.
- Can issue Disconnection Notice.
- Printing of "Billing Notice" right after reading.
- Consumers will receive the "Billing Notice" from Meter Reader right after the reading.
- Batch printing of "Billing Notice Receipt" and its distribution will be eliminated because printing of Billing Notice is done right after reading.
- Eliminate or Minimize reading errors due to on-site reading validation and 6-months average comparison.
- Direct downloading of data to Billing System after completing the Zone at the end of the day, thus eliminating encoding.
- Upgrading the technical capabilities of Electric Utility.
- Back-up of system and data using memory card thus eliminating the possibility of 'erase' data during reading.
- Perhaps one of the most important is the possibility of getting the Payment (CASH) from consumers right away, rather than waiting for the normal cycle of reading, encoding, printing of billing notice, distribution of billing notice.
- Assurance that the Meter Readers will actually go to each customer to read the meters.
- Minimized the work and time of whole billing cycle from reading to distribution of Billing Notice.
- Direct downloading of data from MRBS to Billing System after completing the Zone at the end of the day, thus eliminating encoding.
- Upgrading the technical capabilities of Electric Cooperatives and Water Districts.
- Backup of system and data using memory card thus eliminating the possibility of "lost" data during reading.
- Cost effective thermal paper at only P25.00/roll and can generate 100 to 130 notices.
- Unbundling computation ready (for Electric Cooperatives).
- Improve CASH FLOW by receiving the Payment from consumers right away, rather than having to wait for the normal cycle (reading, encoding, printing of billing notice and distribution of billing notice).
- Provides an accurate time & motion analysis of the Reading Process.
- Return Of Investment (ROI) can be realized in 6 – 9 months.
- Payment Terms up to 12 months installment.
- Lifetime Service Warranty.
