

Meter Read and Bill System (MRBS)

The latest system especially tailored for Electric Cooperatives.

Using the MRBS will greatly improve the overall meter reading and billing procedure of your Electric Cooperative. See the following advantages:

1. Eliminates most of the Billing process errors such as encoding errors and illegible writing of Meter Readers. Readings will just be downloaded from the MRBS to the Billing System.
2. Assurance that the Meter Readers will actually go to each customer to read the meters.
3. Batch printing of "Billing Notice Receipt" and its distribution will be eliminated because printing of Billing Notice is done right after reading.
4. Direct downloading of data to Billing System after completing the Zone at the end of the day, thus eliminating encoding.
5. Upgrading the technical capabilities of Electric Cooperatives
6. Back-up of system and data using memory card thus eliminating the possibility of "erase" data during reading.
7. Cost effective thermal paper at only P30.00/roll and can generate 90 to 100 notices.
8. Unbundling computation ready.
9. The possibility of getting the Payment from consumers right away, rather than having to wait for the normal cycle (reading, encoding, printing of billing notice and distribution of billing notice).
10. Provides an accurate time & motion analysis of the Billing Cycle.

Meter Read and Bill System (MRBS)

Technological Advantages over other meter reading equipment:

1. Rugged, light, water resistant and long operating life.
2. Shock and vibration resistant, screen provided with protector to prevent scratching.
3. 16 MB memory which can accommodate more than 50,000 consumer readings
4. Color and high resolution
5. Comes with water proof Pouch and strap to ensure proper care and easy handling.
6. Screen can accommodate up to 13 lines of information
7. GIS/AM/FM mapping compatibility
8. Could create Word, Excel, PowerPoint presentation
9. Playback movie, MP3, Voice Memo
10. Browse the internet, send and receive e-mails, send and receive text (SMS)
11. Optional car or truck charger
12. Optional External keyboard
13. Optional Bar Code reader
14. Optional Cell Phone
15. Optional Digital Camera

We introduced MRBS to the Water Districts nationwide last year 2002, and we have received a tremendous positive response. Look at the list of Water Districts and Electric Cooperatives who are using and/or have ordered the MRBS.

1. Puerto Princesa Water District (Palawan)
2. Plaridel Water District (Bulacan)
3. Tagaytay City Water District (Cavite)
4. Mabalacat Water District (Pampanga)
5. San Fernando Water District (Pampanga)
6. Calumpit Water District (Bulacan)
7. Iriga City Water District (Camarines Sur)
8. Tandag Water District (Surigao del Sur)
9. Batangas I Electric Cooperative
10. Camarines Sur II Electric Cooperative
11. Palawan Electric Cooperative
12. Nueva Ecija I Electric Cooperative
13. Pampanga I Electric Cooperative
14. Tarlac II Electric Cooperative
15. Zambales II Electric Cooperative

And more to come...
